guarantees

Technical Service Agreements

Maximise availability with a tailored Technical Service Agreement (TSA).

You have the freedom to choose what fits you best within our scope of services and choose a contract duration which can be extended at any time.

We cover everything from maintenance planning and inspections to overhauls and spare parts supply guaranteed at a fixed price and chosen independently from Original Engine Manufacturers (OEM) within mechanical and electrical engineering.

Maintain your systems and equipment at top performance with lifecycle services, supported by guarantees and share of responsibilities and risks.

We offer tailored TSA to meet your needs based on the combination of the following elements:

- Project management and overhaul supervision
- Maintenance and logistics planning
- Remote support and monitoring
- Engineering support from BWSC headquarters
- Technical on-site support and troubleshooting with rapid response pertaining to all disciplines
- Spare parts packages for scheduled and unscheduled maintenance for all equipment at a fixed price, for example per running hour
- Training packages for both theoretical (in classroom) courses and practical (hands-on) courses

Your benefits:

- Maximised availability
- Optimized efficiency of the installations throughout the full lifecycle
- Minimised outage time and optimized equipment lifetime
- Reduced risks of unforeseen failures and down-time
- Cost-efficient maintenance
- Predictable costs forecast
- Access to our extensive network of OEM
- Spare parts delivered in due time for overhaul
- Knowledge transfer to your staff within all technical disciplines
